

SHASHI KUMAR
 Indian Institute of Management, Calcutta

Technical Skill

Tools: Tibco Spotfire | SAS 9.2+ | SAS EG | LaTeX | EXCEL | Jupyter | spyder | Power Automate | Domino | CluePoint |

Programming Skills: SAS | Python | SQL | Altair SLC

BI Tool: Spotfire | Clue Point | Power BI (Beginner level)

Data Science: EDA | Regression | Clustering | NLP | RAG | GEN AI

TCS, Senior Manager

March 2025-Current

Served as **Subject Matter Expert (SME)** in reporting and analytics, leading multiple concurrent studies and managing client relationships across end-to-end delivery cycles.

- Developed standard and custom reports using **SQL, SAS, Altair SLC** and **Python** in **Spotfire** and **CluePoint**, aligned to stakeholder and business requirements.
- Developed SAS and Python safety review and data review listings per study protocols and User requirement document (URS).
- Designed BI dashboards and **study-level listings** and **summary tables** using Spotfire, Clue Point, SAS, Python, Domino, and GitHub.
- Led requirements gathering, managed request pipelines, tracked timelines, and maintained clear client communication across multiple accounts.
- Managed and delivered multiple simultaneous studies, coordinating cross-functional teams while maintaining quality, compliance, and delivery standards.
- Acted as primary client contact for technical queries, issue resolution, and delivery updates.
- Contributed to **SAS-to-Python** and **Spotfire-to-CluePoint** migration projects, ensuring seamless transition and continuity.
- Prepared, maintained, and peer-reviewed report documentation; performed quality checks for accuracy and compliance.
- Designed and implemented a **RAG-based GenAI** solution to dynamically generate Python code across multiple listing scenarios.
- Delivered **Python training sessions**; trained and mentored new joiners with tailored onboarding materials.
- Supported talent acquisition including candidate **screening** and **interview coordination**.

IQVIA, Software Devl Analyst 2

Dec 2020-March 2025

- Led Business Intelligence report development and analytics solution delivery using **TIBCO Spotfire, SAS, Python, and SQL**.
- Developed and implemented end-to-end automation solutions using **SAS, Python, and Power Automate** to streamline and enhance internal and external reporting processes.
- Delivered Data Science use cases including **Clustering, NLP, and Regression**; built NLP and regression models to predict adverse events, segment topics, and identify repeated themes from unstructured data.
- Performed data engineering activities to support the development of scalable analytics solutions; analyzed impact of migrations and major/minor enhancements.
- Created business reports from requirements through to delivery, preparing detailed design documentation to support development and stakeholder review.
- Automated analytical workflows using **Python and R** via Spotfire Data Functions, reducing manual effort and improving data processing efficiency.
- Gathered and analyzed customer and business requirements through Business Requirement Documents (BRDs) to ensure solution alignment with stakeholder needs.
- Provided **Python and Data Science training** to team members, strengthening team-wide technical and analytical capabilities.
- Won the **PSS IDOL Gold Award** and secured a **Top 40 position in the IQVIA Hackathon**.

Tiger Analytics, Senior Analyst

Nov 2019-Oct 2020

- Developing, managing and executing daily BAU jobs to support Retail business that does not limited to promo analysis, Delivery analysis, covid-19 analysis, market basket analysis.
- **Market basket analysis** for FMCG clients to predict sales in particular segment (Pre and post analysis Promo code) and also **Deployed model post model** accuracy checks and presented effect of model post deployment in sales.
- Highly versatile with doing quality check/s data, process automations and scripts optimizations.
- Highly engaged with clients prior to model build process for end-to-end requirement gathering.
- Performed EDA analysis prior model building process to go with particular algorithm selection Classifications using different word embedding (BOW, TF-IDF, Word2vec) and **topic modeling** to summarize overall rating/feedback.
- PIR (Post implementation review) for the model and validated it by customer ratings and statistically significant tests.

Genpact India Pvt. Ltd., Business Analyst

April 2018-Nov 2019

- Involved in development, maintenance, enhancement of existing SAS/Spotfire process.
- Involved in development and automation SAS/Python/Spotfire process for different Bank Policies for credit risk
- Identifying the process for automation, streamline them and liaise with business with the approaches.
- Identify data or process gaps & escalate it to the functional/technology team and follow up till its closure.
- Run monthly reports and close out any potential gaps with stakeholder.
- Support efforts to enhance internal & external reporting processes.
- Analysis on Debt Securities with different rating agencies data.
- Updating Document according to present quarter Performance.
- Do rigorous data mining starting from data cleaning, outlier analysis, statistical calculations, presentation, Insight generation, findings, and developing user interactive reports.

Tigermed India Data Solutions Pvt. Ltd., Statistical Analyst

May 2017-April 2018

- Manipulate large data sets apply basic statistical techniques to understand data, including measures of central tendency and Dispersion, hypotheses testing, regression and correlation analysis.
- Applied logistic regression and hypothesis test to find best suitable drug.
- Analysis on Effect of new drug with patient and comparison drug performance with existing drug using different Statistical technique.
- Developed automated SAS and R code for adhoc requirement.
- Responsible for end-to-end process, starting from requirement understanding to final report deliverable.
- Developed atomized SAS and R program for cleaning, analysis and statistical reporting in rtf.
- Develop clinical data reports, listings and review outputs.
- Translate study requirements into clear reporting specifications.
- Identify automation opportunities that improve reporting efficiency.

Education

Course	Specialization	Year	University	Institution	Marks
Advanced Programme in Data Sciences	Data Science	2018-19	IIM-C	Indian Institute of Management, Calcutta	Excellent
M.E	Control System	2014-16	Jadavpur University	Jadavpur University, Calcutta	8.61
B. E	ECE	2007-11	VTU (Karnataka)	SIT, Tumkur	8.97

EXTRA CIRICULAR ACTIVITIES

- Won **PSS IDOL Gold Award** and **Hackathon (Top 40)** in IQVIA.
- SAS/NLP/Data Science related video on <https://www.youtube.com/c/ShashiSAS>
- Secured **97** percentile in All India Gate Examination (2014).
- SAS Certified Base Programmer for SAS 9.
